REVIEW 1

Acknowledge

First and foremost, we extend our heartfelt gratitude to the Aptech eProject team for providing us with the invaluable opportunity to apply our knowledge in a real-world setting. This experience has been incredibly rewarding and will undoubtedly benefit our future careers.

On behalf of Group 1, I would like to express our deepest appreciation to everyone who played a role in the successful completion of our eProject. Since the beginning of Semester 3 at FPT Aptech, the support and guidance we have received have been instrumental in achieving our goals.

We are profoundly thankful to our teacher, Mr. Le Tuan Xuyen. His passion and discipline have been a continuous source of inspiration throughout this eProject. It is through his unwavering commitment and exceptional leadership that we have been able to achieve our objectives. Mr. Xuyen, we are truly grateful for your dedication and the invaluable guidance you have provided us.

Additionally, I would like to extend my sincere thanks to all the members of Group 5 for their dedication and hard work over the past four weeks. It has been an absolute privilege to collaborate with each of you. Despite the mistakes we encountered, we look forward to having more opportunities to expand our knowledge in the field of web development. We will strive to continue learning and improving ourselves in the future. Your efforts are deeply appreciated.

Once again, thank you all for your unwavering support and collaboration.

Sincerely,

Group 1

Synopsis

The aim of this program is to provide a sample project that simulates the development of web applications for organizing art contests. This experience is designed to help us build more extensive and robust applications. Our goal is not just to familiarize ourselves with C#, .NET CORE, and ReactJS, but to present a real-world scenario, enabling us to create fundamental applications using these tools. Through this project, we strive to enhance our skills and add value to our professional capabilities.

We are a reputable company offering tailored solutions for the art contest industry. It is imperative that we have a comprehensive understanding of the subject matter. To achieve this understanding, it is crucial for us to thoroughly complete the project and address the assignments according to the given requirements.

Problem Definitions

The Institute of Fine Arts faces significant challenges in managing competition details, which are currently maintained using pen and paper. This traditional method leads to inefficiencies in retrieving and updating records, consuming excessive time and effort. For instance, when a student wishes to change their submitted painting, staff must manually search and update the records.

To address these issues, the institute proposes developing a website that will automate the competition process. This platform will allow for the announcement of competitions, and provide facilities for students to upload, download, update, and remove their artwork. By implementing this solution, the institute aims to streamline record management, reduce time consumption, and enhance overall efficiency.

Customer's Requirement Specifications

The client requires a website to manage competitions, artworks, and exhibitions. The website should support multiple user roles (Manager, Administrator, Staff, and Student), each with specific functionalities, focusing on managing student and staff data, competitions, artworks, and exhibitions.

The website will encompass the following functionalities:

1. Modules:

- a. Manager
- b. Administrator
- c. Staff(Teacher)
- d. Student

2. Home Page:

- a. Header – All Page for client will extend the header:

Logo on the left side

Some service left side:

- Home
- Contest
- About Us
- Log In/ Log out

Service right side:

- Login / Register
- After login
- Edit Profile
- Alert bell
- Info User

- b. Body:

First section is a Slider, describing the details of the upcoming competitions.

Section for rent will show information about the details of the ongoing competitions.

Table section for rent the students who are awarded for the previous competition

Section for display the total number of submissions for ongoing competitions, categorized by status (e.g., evaluated, pending evaluation)

Section for displaying important announcements or events related to competitions or exhibitions.

c. Footer – All Page for client will extend the Footer:

Show all information of owner (owner email, all services, Quick links)

At the end of the footer, will have a bar, on the left will show Copyright info, on the right will show Developed info.

3. Login / Forgot password Page:

This page will show the form to login or forgot password.

4. Role-specific Functionalities

4.1 Administrator

Manage staff details:

Add, update, delete, search staff details.

Include login credentials, personal information, work details (date joined, classes, subjects handled).

Manage student details:

Add, update, delete, search student details.

Include login credentials, personal and admission information.

4.2 Staff

View student information

Manage competition details (add, update, delete, search)

Evaluate artworks:

Assign ratings (Best, Better, Good, Moderate, Normal, Disqualified)

Provide feedback (positive points, negative points, areas for improvement)

Manage exhibitions (add, update, delete, search).

Track artworks forwarded for exhibitions:

Monitor sales status, prices, and customer details

4.3 Student

View upcoming competition details.

Upload, edit, or delete artworks (if submission deadline hasn't passed).

View evaluations and feedback from staff.

View exhibition details and statuses.

4.4 Manager

- View all student and staff details.
- View competition details, awards, and submissions.
- View artwork details forwarded for exhibitions.
- Monitor exhibition information and artwork statuses.

5. Database Requirements

Store information for:

- Students, staff (Manager, Admin, Staff).
- Competitions, artworks, and exhibitions.
- Awards, artwork evaluations, and feedback.

6. File Handling Requirements

File I/O:

- Upload, edit, and delete images or files related to artworks.

7. Reporting and Analytics

Reports on best-rated submissions over specific periods or competitions.
Statistics on the number of submissions received

System Requirement Specifications

"Access to this website is restricted to our students and faculty. Guests are limited to viewing the Homepage. To gain full access and utilize the website's features, a login is required. Each user will have a personalized account with specific permissions based on their role."

1. Server requirements:

Hardware:

Component	Requirement
CPU	Processor type: Pentium III-compatible processor or faster

	Processor speed: Recommended: 1.0 GHz or faster
OS	All OS(Windows ,Linux ,Android ,Mac OS ...)
Memory (RAM)	RAM: Minimum: 1 GB Recommended: 2 GB or more Maximum: Operating system maximum
Hard Drive	Free space: Minimum: 10 MB

Software:

Component	Requirement
Web Browser	IE 8.0 , Firefox 3.0 , Chrome or Higher.....

2. Development Software:

Microsoft SQL Server Management Studio
Microsoft Visual Studio 2022
Visual Studio Code 2019

3. Technology:

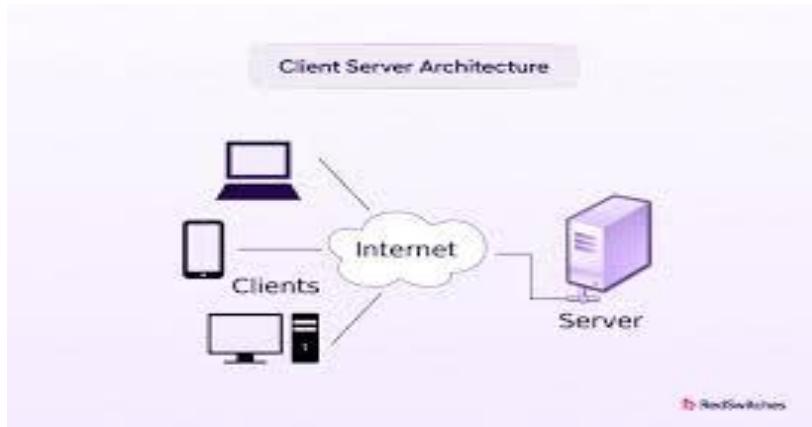

ASP.Net Core API 8.10
Entity Framework Core 8.10
ReactJS 18.0.2 (Vite)

REVIEW 2

I. Architecture & Design of the Project

A **client-server architecture** is a type of application architecture where the application is divided into two main components: the client and the server. The client is responsible for interacting with users and sending requests, while the server processes these requests, performs computations, and returns the required data or actions. This architecture provides a structured framework to develop, deploy, and maintain systems where the client and server can operate independently, yet communicate seamlessly over a network, ensuring scalability and modularity.

A client is the user-facing part of the architecture. It sends requests to the server, typically for data or services. Examples include web browsers, mobile apps, or desktop applications. Clients are often lightweight and rely on servers for heavy computations or data storage.

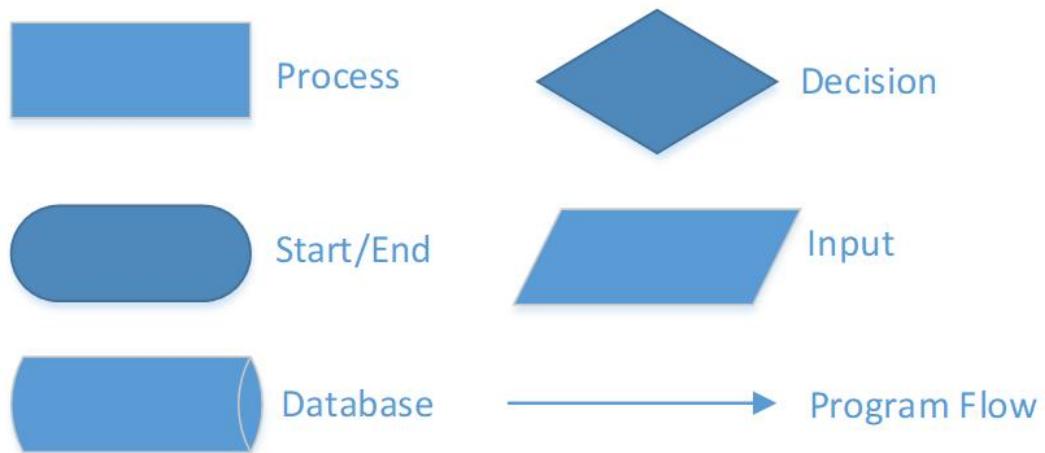

The server handles requests from the client. It processes these requests, accesses necessary data, and sends responses back to the client. Servers can host applications, databases, or APIs. They are designed to handle multiple simultaneous client connections.

For this web project, we decided to implement the **client-side** using ReactJS with Vite. ReactJS provides a robust and efficient framework for building dynamic and interactive user interfaces, while Vite ensures faster development with its modern build tool optimized for performance and hot module replacement. On the **server-side**, we opted to develop the backend and APIs using ASP.NET Core API. ASP.NET Core offers a scalable and high-performance framework for building modern web applications and RESTful APIs, enabling seamless communication between the client and server. This combination of technologies ensures a

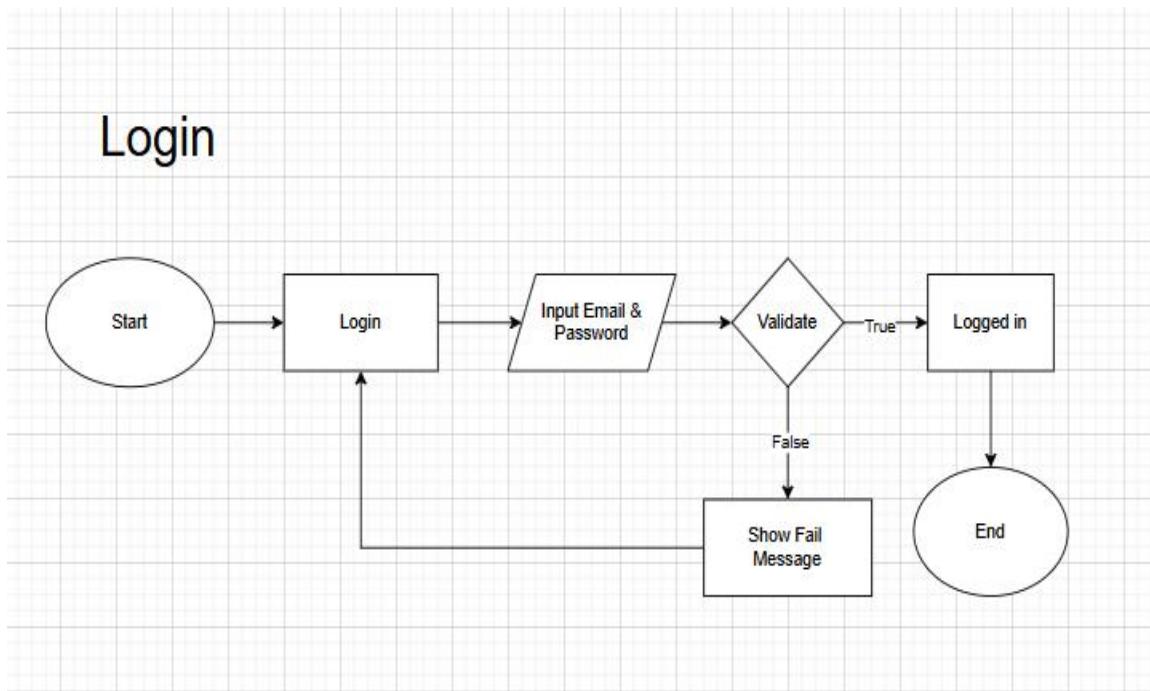

responsive, secure, and maintainable application architecture suitable for the project's requirements

II. Algorithms – Data Flowchart

I. Site map

II. Figma Design Interface

1. Home Page

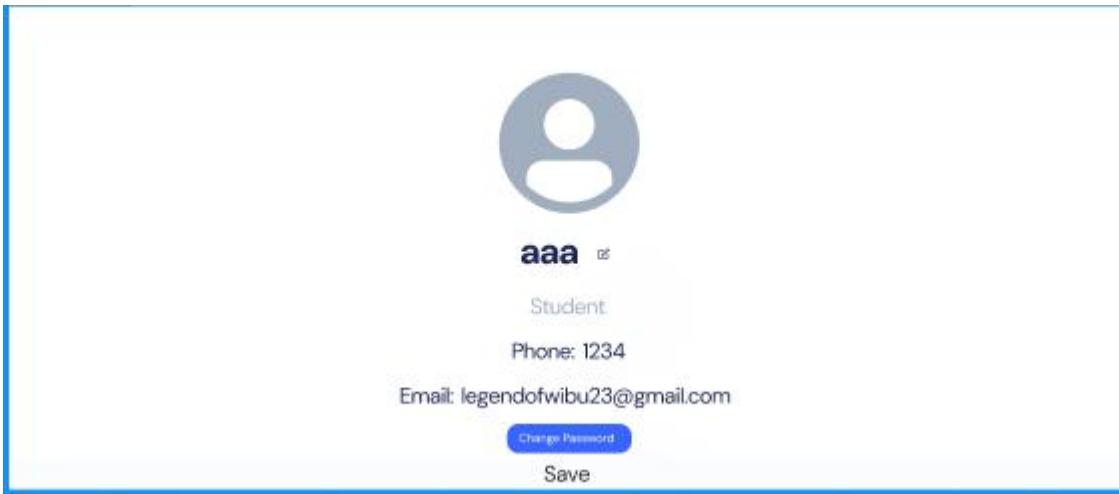

The image shows a Figma wireframe of a website home page. At the top, there is a header bar with the Institute of Fine Arts logo on the left and a 'Login' button on the right. Below the header is a large hero image showing a group of people at an exhibition or craft fair. Underneath the hero image is a search bar labeled 'Search by name...' and a dropdown menu set to 'All'. A blue callout box indicates a dimension of '650 x 40'. Below the search bar is a section titled 'Exhibition List' with a search bar and a dropdown menu set to 'All'. The main content area features three card-like boxes for exhibitions:

- AAA**
Start Date: 01/01/2005
End Date: 01/01/2005
Deadline: 01/01/2005
[JOIN](#)
Organized By: aaa
- BBB**
Start Date: 01/01/2005
End Date: 02/01/2005
Deadline: 02/01/2005
[JOIN](#)
Organized By: aaa
- CCC**
Start Date: 01/01/2005
End Date: 02/01/2005
Deadline: 01/01/2005
[JOIN](#)
Organized By: aaa

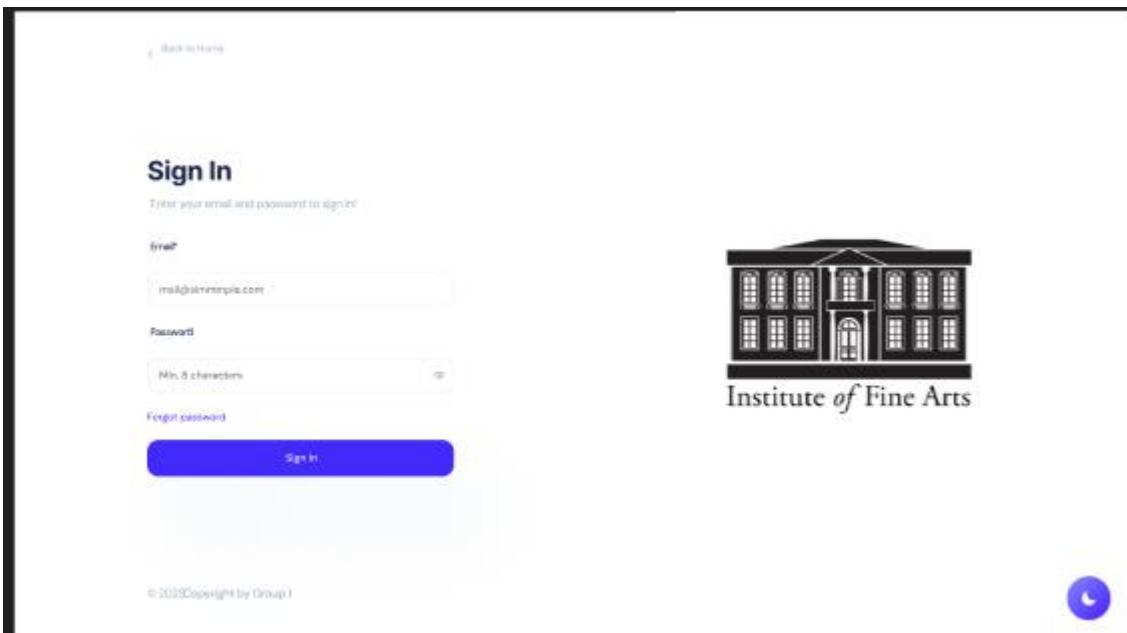

At the bottom of the page, there is a footer with the text '© 2025 Wair Company. All rights reserved.', links to Facebook, Twitter, and Instagram, and a link to 'Our policy'.

2. EditProfile

The screenshot displays a user profile editing interface. At the top is a large, light blue circular placeholder for a profile picture. Below it is the name "aaa" followed by a small downward arrow icon. Underneath the name is the title "Student". Further down are the fields "Phone: 1234" and "Email: legendofwibu23@gmail.com". At the bottom of the profile section are two buttons: "Change Password" and "Save".

3. SignIn

The screenshot shows a sign-in page for the "Institute of Fine Arts". At the top right is a logo of a classical building with four columns and a pediment. To the right of the logo, the text "Institute of Fine Arts" is written. On the left side, there is a sign-in form with fields for "Email" (containing "mail@instituteofarts.com") and "Password" (with a placeholder "Min. 8 characters"). Below the form are links for "Forgot password?" and a large blue "Sign In" button. At the bottom left, there is a copyright notice: "© 2012 Copyright by Group I".

4. AboutUs

[Home](#) [Profile](#) [About Us](#) [My Exams](#) [Logout](#)

ABOUT US

Who We Are

The Institute: your destination for the past, present, and future of art.

The Institute is a thriving center of advanced research and graduate teaching in art history, archaeology, and art conservation. A site of knowledge production since its founding in 1932, the Institute has also produced many of the world's leading art historians, museum directors, curators, and conservators. Learn more about what's happening at the [Institute in the Annual](#).

What We Do

The Institute: a community of learning

Institute students join a tradition of research excellence and share in the latest thinking. They are prepared for careers in the art world, in museums, in conservation, and in universities. We offer the following degrees and fields of study:

IMAGINE

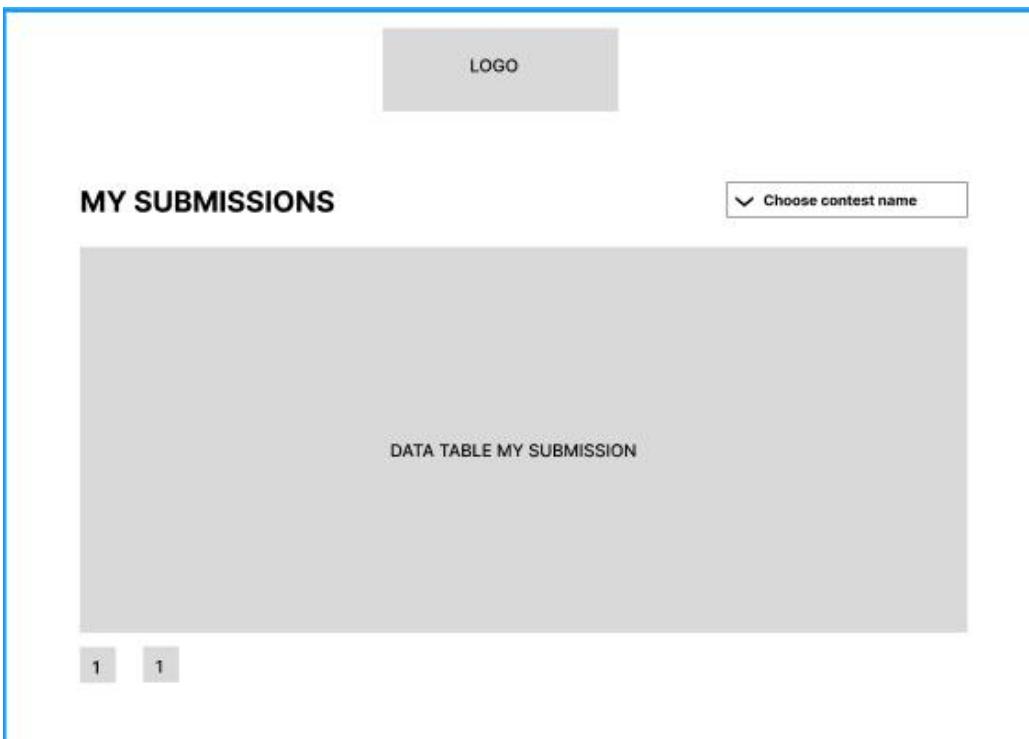

Thoughtful and Considered

Everything we create is designed to tangibly improve your rest.

The University of Fine Arts is one of the leading institutions for art education, dedicated to nurturing and developing creative talent in the field of fine arts. With a team of experienced and highly skilled faculty, the university provides a dynamic learning environment that encourages students to explore and enhance their artistic abilities. The university offers a diverse range of programs, from painting, sculpture, graphic design, to applied arts, equipping students with both theoretical knowledge and practical experience. Students are prepared with the skills, knowledge, and creative thinking required to succeed in both the local and international art markets.

5. My Submission

The screenshot shows a web page titled "MY SUBMISSIONS". At the top right is a dropdown menu labeled "Choose contest name". Below the title is a large, empty rectangular area with the text "DATA TABLE MY SUBMISSION" centered in it. At the bottom left of this area are two small, faint numbers: "1" and "1". Above the main content area is a grey rectangular box containing the word "LOGO".

6. Create New Submission

The screenshot shows a web page titled "CREATE NEW SUBMISSION". It contains several input fields:

- Student ID:** A text input field containing the value "1".
- Date:** A text input field containing the value "01-01-2025".
- Contest name:** A text input field containing the value "Photo contest...".
- Name submission...** A text input field containing the value "Photo 1".
- Description submission:** A text input field containing the value "image is interesting...".
- Choose file**: A button for selecting a file.
- I agree...**: A checkbox followed by the text "I agree...".
- SUBMIT**: A button labeled "SUBMIT".

Users can edit their competition entry using our tool, which supports only basic image processing tasks. Alternatively, they can upload a new file to replace the existing one. Make sure to click the "Done" button, or all changes will be lost. If the edits are successful, the system will display a success message and redirect the user back to the My Submission page.

Additionally, students can view all their competition entries by hovering over the My Exam button in the navigation menu then click View Submissions.

Manage Result of Contest

The screenshot shows a user interface for managing contest results. On the left, there's a sidebar with various navigation options under 'HORIZON FREE'. In the center, the 'Contest Results' section is displayed with a title 'Contest Results Management'. Below it is a dropdown menu set to 'Cuộc thi vẽ tranh đội bóng Việt Nam'. A table titled 'Current Leaderboard' lists two entries: '1 kijnjinj Painting 1 4.5 2 2' and '2 Jane Smith Abstract 1 1 2 2'. At the bottom of this section is a blue button labeled 'FINALIZE CONTEST RESULTS'. On the far left, there's a purple button labeled 'GATHER EVERYONE' with a 'Send' button below it.

Student ID	Participant	Name Submission	Average Score	Review Count	Number review require
1	kijnjinj	Painting 1	4.5	2	2
2	Jane Smith	Abstract 1	1	2	2

For Competition Result Management, teachers can view both temporary results and final results of organized competitions.

The final result table can only be generated once all members of the judging panel have completed evaluating all submissions.

Based on the competition results and the associated award structure, a list of winning entries will be generated and displayed on the Student Award page.

Manage Student Award

The screenshot shows a table of student awards. The columns are labeled 'CONTEST', 'ACTIONS', 'STUDENT NAME', 'AWARD NAME', and 'STATUS'. There are two rows of data: one for 'kijnjinj' with an 'Award' action, 'Gold Medal' award, and 'Pending' status; and another for 'Jane Smith' with an 'Award' action, 'Silver Medal' award, and 'Pending' status. A small navigation bar at the bottom indicates page 1 of 1.

CONTEST	ACTIONS	STUDENT NAME	AWARD NAME	STATUS
Cuộc thi vẽ tranh đội bóng Việt Nam	Award	kijnjinj	Gold Medal	Pending
	Award	Jane Smith	Silver Medal	Pending

All award-winning artworks can be selected for exhibition. If an artwork is sold, the proceeds will be paid to the student. Therefore, an ArtWork Management feature is required.

Update Exhibition Artwork

Teachers can also **submit the draft for approval** by clicking the designated **Submit for Review** button.

Next, let's explore the Admin Pages.

After logging in with an Admin account, the system will redirect the user to the Admin Dashboard

Admin DashBoard

Class List

The screenshot shows the 'Class List' section of the Admin dashboard. It displays six cards, each representing a class:

- Class A:** Total Students: 30, Year: 2025, Detail button.
- Class B:** Total Students: 25, Year: 2025, Detail button.
- Class C:** Total Students: 35, Year: 2025, Detail button.
- Class D:** Total Students: 40, Year: 2025, Detail button.
- ABCDER:** Total Students: 20, Year: 2025, Detail button.
- Lop hoc sieu cap:** Total Students: 20, Year: 2025, Detail button.

On the left sidebar, under the 'HORIZON FREE' section, the 'Admin' menu is selected, showing options like Student List, Staff List, Create Class, etc. Below the sidebar is a purple button labeled 'GATHER EVERYONE' with a 'Send' button.

Class Detail

The screenshot shows the 'Class Detail' page for 'Class A'. It includes the following sections:

- Class Information:**
 - Class Name:** Class A
 - Total Students:** 3
 - Year:** 2025
- Students List:** A table showing three students:

#	Name	Email	Action
1	Luu Bao	baolpb51977786@gmail.com	DETAIL
2	123	baolpb51973@gmail.com	DETAIL
3	Luu Bao	abc@gmail.com	DETAIL

Student Detail

The screenshot shows the 'Student Details' page for a student named Luu Bao. The page includes a sidebar with navigation links for Admin, Student List, Staff List, Create Class, Create Staff, Create Student, Import Student, and a 'GATHER EVERYONE' button. The main content area displays the student's profile with fields for Email, Date of Birth, Phone, Password, Enrollment Date, Parent Name, Parent Phone, and Address. Below this are sections for Classes (Class A), Submissions (No submissions found), and Awards (No awards found). The bottom of the page includes a copyright notice and links for Support, License, Terms of Use, and Blog.

Create Students By Import File Excel

The screenshot shows the 'Admin' section of the application. On the left sidebar, under 'HORIZON FREE', there is a 'Admin' category with links for Student List, Staff List, Create Class, Create Staff, Create Student, and Import Student. A purple sidebar button labeled 'GATHER EVERYONE' with the sub-instruction 'Send the meeting to everyone' and a 'Send' button is visible. The main content area is titled 'Import Students' and contains a file input field with the placeholder 'Choose File No file chosen' and a blue 'IMPORT STUDENTS' button. The top navigation bar includes 'Pages / Admin', a search bar, and user profile icons.

Finally, we have the Manager Interface Pages.

After logging in with a Manager account, the system will redirect the user to the Manager Dashboard.

Manager Page

View Class

The screenshot shows the 'Classes' section of the Manager dashboard. The left sidebar under 'HORIZON FREE' includes links for Main Dashboard, Classes (which is selected), Exhibition List, Competition List, Award List, Requests, and Inactive Staff Status. The purple 'GATHER EVERYONE' sidebar button is also present. The main content area is titled 'CLASSES' and displays a grid of six class cards. Each card has a placeholder 'No Image' and details about the class, teacher, student count, and school year. The cards are arranged in two rows of three. A search bar at the top right allows users to 'Search by School Year' with an 'Enter year' placeholder. The bottom of the page includes a copyright notice and links for Support, License, Terms of Use, and Blog.
